

# HP Accessibility Assistant (2MU47A)

Empowering people with a conversational voice solution

Driven by a desire to connect people to the power of technology, HP is reinventing voice command and screen-reader support with the HP Accessibility Assistant—following worldwide accessibility standards, including the U.S. Revised 508 and Europe's EN 301 549.

## Key selling points

### Voice command, screen reader

Increase employee productivity with a device that lets users effortlessly communicate with a range of HP single- and multifunction printers and scanners. Session-based voice command is activated with a single touch.

### Security is non-negotiable

HP Accessibility Assistant is ready for high-security environments, and is neither cloud connected nor Bluetooth® dependent. Voice sessions are time-based and active only when someone presses the “Voice command” button, an audio cue sounds, and an LED light is illuminated.

### Universal design

HP Accessibility Assistant aims to make select HP devices more friendly and helpful by leveraging universal design principles like intuitively shaped buttons and easy-access features.

# Accessible technology for everyone

## Recognized commands

HP Accessibility Assistant will support around 170 English voice commands for devices configured in English, including these commonly used words and phrases.

To copy, specify the number of copies to make (from 1–99) and say:  
“<number> copies,” “copies <number>,”  
“<number> copy,” or “copy <number>.”

To set the number of sides of the page to use, say:  
“two-sided,” “double-sided,” “duplex,”  
“one-sided,” “single-sided,” or “simplex.”

To choose paper size, say:  
“match original size,” “automatic size,”  
“letter,” “legal,” “eleven by seventeen,”  
“ledger,” or “twelve by eighteen.”

To set the staple option, say:  
“staple off” or “staple” (staples in the  
top-left corner).

To specify the sides of a page to scan, say:  
“two-sided original,” “duplex original,”  
“double-sided original,” “one-sided  
original,” “simplex original,” or “single-  
sided original.”

To select the paper type, say:  
“plain” or “letterhead.”

To collate or uncollate, say:  
“collate,” “collated,” “collate off,” or “collated off.”

To choose black-and-white or color, say:  
“color,” “black,” “automatically detect color,”  
or “automatic color.”

To select a specific tray, say:  
“tray <number>,” “manual feed,” or  
“automatically select tray.”

To optimize for text or picture, say:  
“optimize text” or “optimize picture.”

For sizing adjustments, say:  
“scale <number> percent” (from 1–999%).

To specify the original document’s size, say:  
“original any size,” “original letter,” “original  
legal,” “original eleven-by-seventeen,”  
“original ledger,” or “original twelve by eighteen.”

To toggle edge-to-edge, say:  
“edge-to-edge” or “edge-to-edge off.”

To toggle high contrast, say:  
“high contrast on” or “high contrast off.”

To invert colors, say:  
“invert colors on” or “invert colors off.”

For a screen zoom, say:  
“screen zoom off” or “screen zoom  
<number> percent” (125, 150, or 200  
percent).

To toggle screen reader, say:  
“screen reader on” or “screen reader off.”

To control the sound volume, say:  
“volume to <number>” or “volume  
<number>” (from one to ten).

## Compatible devices

The HP Accessibility Assistant can be conveniently attached to your HP device or it can sit flush in the hardware integration pocket. It is compatible with HP enterprise-class devices that have 2.7”, 4.3”, or 8” control panels and the latest Future Smart 4 firmware.
