

## TV Cart - For 32" to 70" TVs - One-Touch Height Adjustment

Product ID: STNDMTV70

This portable TV cart makes it easy to create a mobile media center, providing a convenient and cost-effective way to share A/V equipment between rooms. Engineered with a sleek and sturdy design, the TV cart provides a secure mount for a 32" to 70" TV (with maximum weight of 66 lb./30 kg) and a removable multi-media shelf for placing your computer, media player or keyboard. It also includes a camera shelf for web-conferencing.

### Move your media center from room to room

The mobile TV cart saves you the cost of buying multiple flat-panel TVs. Simply roll the TV cart between boardrooms, classrooms and meeting rooms, to share your media equipment. The cart features a small footprint that enables you to stand close to the display, while delivering a presentation. You can also set up a display in your lobby during special events or set up a permanent display in areas where you can't wall mount. The wheels are lockable for stationary use.

## **Adjust your display with ease**

With the TV cart's spring-assisted height adjustment, you can raise or lower the display mount with one smooth motion, from a minimum height of 3.6 ft. (1110 mm) to a maximum height of 4.9 ft. (1510 mm) - a lift of up to 15.7 in. (40 cm). The TV mount rotates up to 90°, so you can change the position of your display from landscape to portrait. You can also tilt your TV +5° to -12°, to find the optimal viewing angle.

## **Durable construction**

The TV cart's durable construction makes it ideal for commercial use, in environments with multiple users and frequent movement between meeting areas. Built-in cable management keeps your cables organized and hidden from view.

The STNDMTV70 is backed by a StarTech.com 2-year warranty and free lifetime technical support.

## Certifications, Reports and Compatibility

## Applications

- Ideal for commercial use, simply roll the TV cart between boardrooms, classrooms or other meeting spaces to share media equipment and minimize costs
- Set up a stationary display during special events
- Set up a permanent display in your lobby or areas where you can't wall mount
