

The adjustable document holder

Q-doc

- Using the Q-doc improves body posture and comfort level
- Decreases neck pain and eye discomfort
- Comfortable and efficient in use; short view distance between document, screen and keyboard
- Five possible height settings for optimal view and alignment to screen
- Complies with European requirements for healthy desktop computing
- Storage facility for a compact keyboard under the Q-doc
- Elegant design

The Q-doc document holder excels in design and functionality. The concept is clear: the document holder is placed between your screen and keyboard, creating a functional workspace that prevents undue pain and neck injuries.

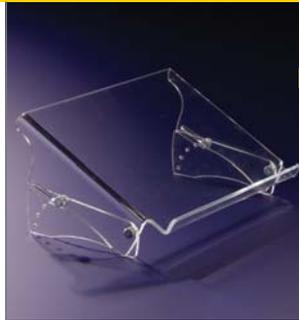

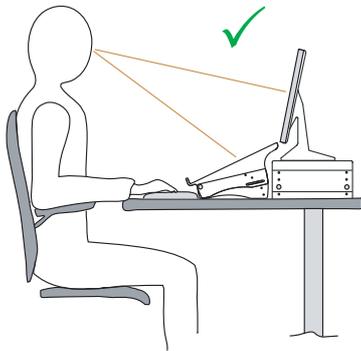

The Q-doc easily supports several documents, writing-cases and large books.

Q-doc

Legal requirements for desktop computing

By European legislation, employers are obliged to take proper measurements to prevent physical discomforts among their employees. Most desktop users work with their computer and documents at the same time. The use as such of the equipment must not be a source of risk for the workers. The document holder requires to be stable, adjustable, and positioned so as to minimize uncomfortable head and eye movements.

- Solid A3 document holder suitable for supporting all kind of documents

- Five possible height settings for creating optimal view and alignment to screen

- Q-doc suits perfectly with the monitor support B&E-160
