

StyleView® Carts with **Lithium Iron** battery technology

Ergotron increases customer choice with the addition of Lithium Iron (LiFe) battery technology to our point-of-care portfolio

Why choose a StyleView cart powered with LiFe?

Extremely lightweight and adjustable!

The LiFe power system and compact, lightweight base combine with StyleView's ergonomic adjustability to decrease caregiver fatigue and enhance overall wellness and productivity

Ultrafast recharge ensures caregiver and cart uptime

A full recharge from full discharge can be completed in around two hours for typical loads. Less charging = more caregiving!

Long battery 'LiFe' minimizes time and cost for maintenance and replacement

Proven to achieve thousands of cycles per lifetime and to last several years in a typical healthcare setting

Safe and certified

For patient and caregiver safety, the power module on all carts is certified to UL 60601-1. In addition, FULL power system and cart certification is complete for North America and International SV42

Includes FREE StyleLink with enterprise capabilities

Install, access and manage your StyleView power systems from a remote location across WAN, LAN, or VPN

Lightweight. Ultrafast recharge. Long battery LiFe.

LiFe Carts

Attractive, lightweight and ergonomic, these carts meet the individual needs of the caregiver while supporting the application-specific needs of point-of-care.

- ① True ergonomics! Accommodates the largest range of caregiver heights with single-motion adjustment for sitting or standing and bifocal users; StyleView carts help promote caregiver wellness
- ② Ergonomic back-tilt keyboard tray with left or right mouse tray ensures wrists remain in a neutral position during data entry. LCD and keyboard swivel side-to-side for closer access while interacting with patients
- ③ Lockable, ventilated storage compartment for closed notebook, thin client or CPU up to 17.75"W x 14.75"D x 3.75"H (45 x 37.5 x 9.5 cm). Keys and locks are heavy-duty
- ④ Surfaces are treated with antimicrobial for product protection; handles are smooth and continuous for improved cleanability
- ⑤ Durable, easy-to-clean exterior composed of aluminum, high-grade plastic and zinc-plated steel promotes infection control
- ⑥ 150W power module with 40 Ah 120V 60Hz Lithium Iron (LiFe) battery
- ⑦ StyleView's small footprint, with ultra-smooth gliding casters, travels across carpeted or hard floors with ease—perfect for moving within space-constrained areas

Warranty: five (5) years for cart, two (2) years on all power supply components; five (5) years on LiFe battery, including two-year capacity guarantee; see website for details

Safe, environmentally responsible design provides peace of mind: non-toxic, non-contaminating, non-explosive; no special disposal required

Open-architecture design accommodates most laptops—even widescreen with up to 17.3" diagonal size—easing future hardware deployments and upgrades

Covered by Global Service Program—24/7 coverage; other StyleView carts will be upgradeable to LiFe

See how you will benefit from our years of digital display mounting and mobility innovation in healthcare environments.
